

## Why Mobiletron TPMS ?

We are an automotive electronics manufacturer with a global network of offices. Our products are exported to over 100 countries. Designing and manufacturing OE and OES quality parts, supplying distributors, motor factors and manufacturers since 1982.

All of our TPMS sensors are manufactured to ISO, SAE and GB standards. As a global group, our TPMS sensors are currently being supplied to the OE market in the Far East and are now available in the global aftermarket.

Due to the new regulations there will be a natural requirement to maintain, repair and service TPMS sensors. The MORE SENSOR range is designed to give businesses a competitive advantage.

Our Direct Fit and Universal range are designed to replace the original sensors for the automotive aftermarket. All our sensors are available in 433 MHz and 315 MHz and cover over 95% of vehicle applications fitted with a TPMS system.

***Your one-stop source for TPMS replacement parts!***
